## SIX REASONS NOT TO INCORPORATE

- So you can continue to maintain your higher risk of IRS audit.
- So you can continue to pay more taxes and receive less tax deductions.
- So you can maintain full personal liability for all your business debts.
- So you can keep your family vulnerable to business related lawsuits.
- So you can be sure your business will be very hard to sell in the future.
- And finally, so the public will always perceive your business as *small*.
